With a focus on performance, productivity and reliability, Garlock offers a broad lineup of powered deck equipment.

NEW DESIGN

R800 Workhorse

- 13 HP Honda power, forward/reverse with tight turning radius
- Carrying Capacity: Up To 850 lb
- Towing Capacity: Up To 3000 lb
- Ergonomic deadman brake
- Hydraulic drive motors
- Flat free or air tires

Mustang Workhorse

- Powered by 5.5 HP Honda power, forward/reverse
- Move heavy loads easily, versatile
- Carrying capacity: up to ok
- Heavy duty frame
- Dual flat free caster wheels distribute heavy loads

ATTACHMENT OPTIONS

High Lift Fork

- Attachment for R800
- Lift capacity 850 lb
- Works great with Little Giant Trailer

Tuff Tray

- Width of Trash Chute Hopper
- Use with R800 or Mustang

#30 Dump Box

- Capacity 30 cubic feet
- Use with R800 or Mustang
- Not compatible with older workhorse

Gravel Spreader

- Handles large and small rock
- Use with R800 or Mustang

POWERED DECK EQUIPMENT

Ultra Cutter Pro Saw

- 13 HP Honda power
- All cutters feature pivoting blade guard to ensure uniform contact with the roof surface and easier blade inspection
- Remote breather

Roof Warrior

- 13 HP Honda power, electric-start
- Hydrostatic transaxle, forward and reverse
- Adjustable pitch blade
- Optional 30" straight blade or 18" tined blade
- Hour meter standard
- Dual wheel option also available
- Chevron tire standard, turf tire optional

Enforcer Twin Saw

- 20 HP Honda power, electric-start
- Self-propelled, with hydrostatic drive increases production three times over single-blade cutters
- Maximize productivity
- Minimize cutting time

Ultra Cutter Mini-Saw

- 5.5 HP Honda power
- No-tool floating shroud
- Forward cutter design allows 2 inch wall clearance and lower height means less jacking of on-roof obstructions

Dust Master

- 9 HP Honda power
- Maximum protection against hazardous dust and airborne particulates including asbestos
- Water-dampening system releases a precision spray pattern inside the blade guard

NEW DESIGN

GS-36 Sweeper

- 5.5 HP Honda engine
- Adjust sweep angle 15 degrees left or right
- Ergonomic operator controls and flat free tires
- New design: Brush casters reduce bounce

Rocker

- 13 HP Honda power, electric-start
- An affordable rock-removal system that handles pea gravel up to 2 ½" rock.
- Clears up to 10-12 tons per hour(20 squares)
- Hydrostatic transaxle for forwarding and reverse maneuverability

NO. 12 Scratcher

- 5.5 HP Honda power
- Leaves a 4-½" wide semi-smooth surface with 12 carbide pins
- Adjustable depth and rotating speed for different surfaces

Rotary Planer

- 10.5 HP Honda power
- Easy handle-mounted depth control
- Throttle controls at easy reach
- Chain fence minimizes flying debris
- 12" path with 4 carbide bits

COLD PROCESS EQUIPMENT

NEW DESIGN

CYCLONE 5/15

- Use either 5 gallon bag-in-a-box or 15 gallon kegs
- Automatic brake
- Towable
- Fit through standard door opening
- Safe and easy barrel
- 50 ft bonded 2000 PSI hose industry proven pump and motor
- Dual component pump from single drive motor
- Easy front loading product trays
- Manifold now standard on Cyclone units

CYCLONE EXTRUDER

- Dual component pump from single drive motor
- Smooth operation from the 0.5 HP electric motor
- Easy front loading product trays
- Robust operator wand with dual hose
- Products mixed at tip for easy clean up
- Flat free rear caster with parking brakes
- Optional mounting kit for Honda generator

PORTABLE GENERATORS

NEW DESIGN

G12 GENERATOR

- Industry proven engine and gen head
- Robust frame made for trades
- Tip and go design is balance for easy rolling when lifted and automatically braking when set down
- Handles fold in for easy transportation
- Mountable on Little Giant Trailer
- Outlet switch limits potential overdraw issue(s)

- 4 lift points double as overhead fork pockets for easier ground to roof top transitions
- Wheel kit can be mounted inside frame to pass through doorways
- 32 Amp breakers, competition uses 30 Amp.
- Sound panel and wheel kit optional (shown)
- Sound panel reduces noise to <80 db at operator's ear

With a focus on productivity and durability, Garlock offers a broad lineup of on-deck equipment.

Little/Big Giant Trailer

- Carries bundles of insulation or debris on 30"x 60" 2,000 lb capacity bed
- Drop-handle braking. 18"x 8.5" 4-ply tires towable in single or tandem with R800
- Can be towed in tandem. Also available with 30" x 84" bed and 2,000 lb capacity (Big Giant)

30 Dump Tray

- Hauls tear-off and debris
- Holds 30 cubic feet of material
- Carrying capacity: up to 1000 lb
- Clamps to frame of Little Giant Trailer
- Dumps easily with one handle

Wheelbarrow

- The tube frame construction and built-in bumper stop protect from damage and provide long life
- Haul up to 5.75 cu ft
- The long straight handles position the load over the axle
- Flat free tires wheels provide stability

NEW DESIGN

shown with Little Giant Trailer/ not included

Tuff Tray Twin

- Load up to 700 lb (18 cu ft) per tray transport up to 1400 lb
- Dump directly into trash chute, square chute, and square chute parapet
- Move large volume of debris safely and dump with one operator
- Large tip handle allows quick and efficient operation and locks in place while in the work position
- Mounts to any Little Giant trailer
- Towable with R800
- 1/4" thick poly design does not rust, dent or peel

THE SUPER WHEELBARROW

Smart Cart Pro with Tuff Tray

- Large capacity debris handle
- Move heavy loads easily
- Dump directly into trash chute
- Transport up to 700 lb

Pallet Packer

- Picks a variety of materials
- Forks are 32.5" on center
- 800 lb capacity
- Packer Pal adds 2 wheels for easier transport, adjustable angle
- Large wheels and wide wheelbase provide stability

Power Jack

- 2500 lb lifting capacity with only 110 lb/per sq ft weight on surface
- 21" lifting height
- Hand pump raises forks
- Built-in parking brake
- Towable with R800 Workhorse

NEW DESIGN

E-Z Roll Carrier

- Handles rolls to 134" long. Optional 5' extension
- Rotating spindles for easy unrolling
- Swivel dollies for maneuvering with rests to hold rolls off the ground
- Optional Featherlite flat free tires
- 3" O.D. spindle easily accommodates either 3" or 4" core materials

Insulation Fork

- Designed specifically for moving palletized load of roofing insulation products
- Haul up to 600 lb with the wide 32" forks
- The 4 wheel design and wide stance provide stability for oversized sheet products

Air Conditioner Jacks

- Slides under A/C unit and raises up to 18 in
- 6 ft reach standard
- Up to 10 ft with extensions
- 4 3/4" x 8 1/4" base protects the roof
- Four jacks with two extension bars standard

3 1/2 Tined Dry Bar

Super Shingle Tearoff Bar

- Tined shingle blade

Super Tearoff Bar

- Steel blade

Save time and labor with the Garlock GSX spray applied waterproofing system.

RAM Mobile Rubberized Asphalt Melter

- Oil-jacketed melter features a hot-air burner chamber that provides uniform heat in as little as 45 minutes
- Low loading height makes material loading safe
- Powered agitator keeps materials suspended and redistributes heat
- Draincock for gravity fed filling
- Diesel fired burner with temperature controls and diesel-powered engine

RAM 60 Mobile Melter

The Ram 60 mobile rubberized asphalt melter gives contractors yet another option in accessing hard to reach application points on job sites.

- Hot-air burner chamber heats an oil chamber which in turn melts the rubberized asphalt material
- The oil chamber provides uniform soft heat capability which melts materials in as little as 45 minutes from a cold start
- A powered agitator keeps materials suspended and distributes heat inside the material chamber
- Diesel fired burner, 100% temperature controls, 9.5 Kohler engine, draincock
87" L x 33" W x 72" H. Weight 1589 lb

GARLOCK GSX WATERPROOFING

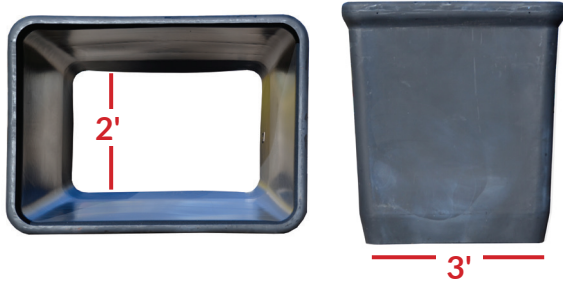

GSX Spray Applicator

- Spray applies waterproofing on any horizontal or vertical surface. Up to 5 times faster than trowel methods on plaza decks, roofs, foundation walls, tunnels or green roofs/gardens
- Work safely by spraying material at temperatures below 260°F, which is classified as cold-applied
- Material capacities of 150 and 230 gallons
- The fully enclosed double boiler is oil jacketed for indirect heating
- An onboard digital system with automatic control of melter temperatures
- Auger/Agitator eliminates temperature stratification and recirculation ensures fast heat up and recovery times

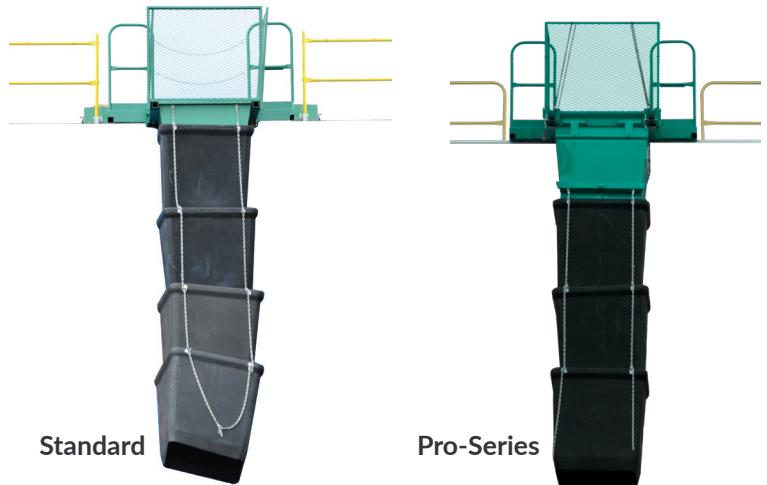

With a focus on productivity and durability, Garlock offers a broad lineup of on-deck equipment.

NEW DESIGN

Square Chute Trash System

- Patented system reduces jams and remove, debris faster
- Pro-Series adds swivel hopper makes switching between dumpsters fast with dual axis articulation
- Stackable
- 3/16" thick construction
- Integrated chains with tool-free connection

Options:

- Square Chute Pallet
- Square Chute Pick Box
- Square Chute Hoist

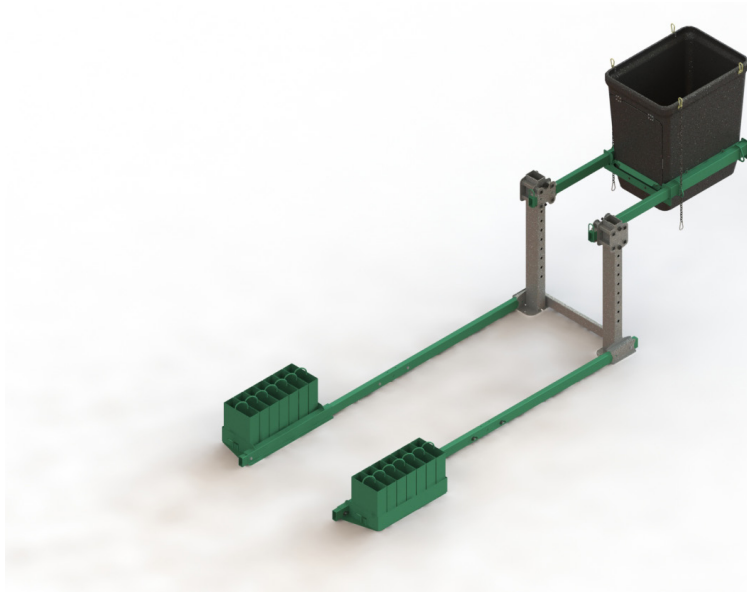

NEW PRODUCT

Parapet Adapter

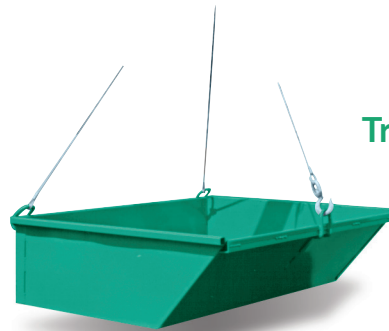

- Adapts easily to wall heights from 6" to 48"
- Rugged, galvanized design
- Safe and reliable
- Compatible only with Square Chute and Square Chute Pro
- Maintains the wide approach widths available to the square chute systems
- For use on roofs with up to a 1/12 pitch (5 degrees)
- Weight box and mid support utilization is critical

NEW PRODUCT

Narrow Trash System

- Hopper and chutes are 3/16" min thick recycled LLDPE plastic that is good from -40 to 120 degrees
- Self-supporting system no need for attaching to walls, floors or window sills
- Support system can hold up to 20 chutes
- Hopper can fit over building walls between 4" and 24" thick
- Lock-out points are standard on each hopper
- Fits through openings as small as 32" wide
- Support system components sized to fit in elevators
- Hoppers can be used separately and may be supported with scaffolding

Trash Tray

- 14.5 cu ft / 800 lb capacity
- Opening dimension 50" x 43" x 13"

Trash Chute Support System & Winch System

- Supports up to 20 Trash Chutes
- Order with winch support that fits inside the chute support to hoist the hopper and chute sections to the roof edge
- Slide out support system secures hopper and chute sections
- OSHA compliant

Trusted Name Since 1959

Since 1959, Garlock Equipment Co. has been filling the needs of commercial roofing contractors with quality equipment that gets the job done. Garlock continues this tradition today as the premier equipment manufacturer in the industry. With a focus on safety, performance, and productivity, Garlock has the equipment for your next job. Parts now available at garlockequip.com for your convenience.
