EQUIPMENT COMPANY

RockerTM

- Increased Revenue
- Increased Profitability
- Productivity
- Rugged Design
- Flexibility

Increased Revenue: Submit more competitive bids and land more contracts, by eliminating or reducing rock removal costs associated with other methods.

Increased Profitability: Spend up to 60 percent less, move rock quickly and safely, and save labor costs for rock-replacement dollars vs. shoveling or vacuuming.

Productivity: Move up to 10-12 tons of rock per hour - Enough to fill wheelbarrow every 30 seconds, easily out pacing a 6-man crew.

Rugged Design: Experience long term performance, lower cost of ownership and operation with the Rockers heavy duty design and construction, engineered for the rugged job ahead.

Flexibility: Remove many types of ballast, from pea gravel up to 2 ½ inch rock with the custom configuration options. Change configurations in just a few minutes.
